## DEMOCRATS DENYING DEFECTS OF WAR

Secretary of the Treasury McAdoo delivered himself of a regular old knock-down-and-drag-out political speech at Raleigh, N. C., recently. He was talking to the Raleigh Chamber of Commerce, a body of men who, he firmly believes, are utterly devoid of the power to reason. He said our present prosperity is not due to war, but to the economic strength of the country, whatever that means.

Well, Mr. Secretary, there is just one reply to that statement. Before the outbreak of the war business was shot to pieces and the most popular resort for the laboring men was the corner at which the soup cart and the Fleischmann bread wagon made its appearance. The end of this fiscal year will find us with a favorable trade balance of over \$2,000,000,000. Beginning with April, 1914, when the Democratic tariff law was getting in its deadly work, the balance of trade turned against us. It had been diminishing monthly, from the time of the passage of the Underwood law.

In April we bought of foreign competitors \$11,000,000 more of goods than we were able to sell abroad. The trade balance from that month to August, was against us. In August it was \$19,400,000 to the bad. The European war broke out in that month, and the first demand of the warring powers of the United States was for foodstuffs and horses and mules. During September we recorded a favorable trade balance of \$16,000,000. It rose to \$131,000,000 in December, 1914, and \$187,00,000 in December, 1915. Thirty-one articles properly characterized as munitions of war made up 52 per cent of our total exports. The South American countries, no longer able to secure their supplies from Europe, turned to us for relief.

Mr. McAdoo and all the rest of the Democrats, can argue their heads off trying to prove that our prosperity is not due to the European war, but "facts is facts." The Democratic prosperity slogan has a mortuary smell.

A report from Pittsburgh states that American shell-making firms in that region are closing contracts for 600,000 tons of shell steel. Recent inquiries from England alone are estimated at nearly 300,000 tons, while the requirements of France and Italy make another 300,000 tons. It also is estimated that 600,000 tons were involved in contracts closed during the past few weeks most of which went at 3.5c to 4c per pound. The tremendous tonnage now pending is for delivery in the last half of this year and does not represent the full requirements of the Allies for that period. Mr. Redfield does not consider shell steel a munition of war, but he does regretfully admit that steel shell comes in that category. The Democratic Publicity Bureau will make use of these contracts in referring to our "era of unexampled prosperity," due to the Democratic party (?)

The decision of Judge Hough of the Federal District Court of New York that trust companies doing a banking business are not subject to the war tax will affect taxes paid into the Government by those institutions to the amount of about \$2,000,000. As the Government has announced its intention of appealing the case, Secretary McAdoo will hold this sum subject to the ruling of the upper courts and will be able to count it in his report of receipts for the fiscal year ending June 30, next. Every little bit helps.

Again President Wilson desecrates his cabinet. He wants a "council of executive information" composed of seven specialists who will serve without pay and aid his cabinet. But why didn't he get some specialists when he was making up his cabinet? Why does he give one set of men the honors and the money and ask another set of men to furnish the ability and the experience?

It is a rather grave assault upon the Democratic party for President Wilson to assume, as he seems to do, that there is only one Democrat who will do for a place on the Supreme Bench.

## "Reason-Why" Tires

**G**OODRICH "Barefoot" Tires are light in weight, and close grained.

This proves them relatively free from the usual inert substances or "fillers," that give excess Weight, stiffness, and grind, to Tire treads.

More than 200 different Makes and Brands of Motor-Car, and Truck, Tires were manufactured and sold in U. S. A. last year, 1915.

These totalled about 12,000,000 Tires. Of that 12,000,000 total Tires, the B. F. Goodrich Co. made and sold one-fourth.

Yet, Tires are only one of the 267 different lines of Rubber Goods made by the Goodrich Rubber Factory, which is the largest in the World, with a 47-year Experience.

This indicates the "Reason-Why" Goodrich Best-in-the-Market Fabric Tires can be, and are, sold to Consumers (via Dealers) at the lowest prices in America, per delivered Mile of Performance.

Compare figures herewith and see!

## POSITIVE PROOF

Should Convince the Greatest Skeptic in Maysville

Because it's the evidence of a Maysville citizen.  
Testimony easily investigated.  
The strongest endorsement of merit. The best proof. Read it:  
Mrs. Della Luneford, 323 E. Front St., Maysville, says: "I attribute kidney trouble to a strain. I had sharp, shooting pains through my kidneys and a dragging-down feeling through my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy. My feet began to swell and my hands were at times the same way. Finally, I used Doan's Kidney Pills and they cured me."

OVER THREE YEARS LATER Mrs. Luneford said: "Doan's Kidney Pills completely and permanently cured me and I am glad to confirm all I said in their praise before."  
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Luneford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.
